

# Nero Forte

## Slipknot

Watch this I'm never enough You bleed me dry, using me up  
Dissatisfied and used  
Another key to the empty spot in you I'm sick as a fuck  
I'm in my prime, what do you want?  
I guess it's time to see  
If you're lost in hell, you'll find no peace Ooh, wade through hate and fear  
I haven't felt like this in years  
Not much left, so uprooted  
Fists clenched tight in the pockets of my hoodie  
And I know where I need to go  
But the voice of reason can't say no  
It's in the eyes and heart  
Just the latest psycho off the charts That's what you do best A home like yours is upside down  
Too much animosity, nobody does it better than the enemy  
A hope like yours won't help me now  
You can do your worst to me At the end of the day, that's what you do best  
A home like yours is upside down  
Too much animosity, nobody does it better than the enemy  
A hope like yours won't help me now  
You can do your worst to me  
At the end of the day, that's what you do best  
I know, and even if I didn't know, I would lie  
So many would believe it  
Stand up and resist the chains  
Of all the people in belligerent sick restraint I wasn't enough  
You bled me dry, which way is up?  
Oh, you're a lie and a fake  
I hope that truth is not too late That's what you do best A home like yours is upside down  
Too much animosity, nobody does it better than the enemy  
A hope like yours won't help me now  
You can do your worst to me,  
At the end of the day, that's what you do best A home like yours is upside down  
Too much animosity, nobody does it better than the enemy  
A hope like yours won't help me now  
You can do your worst to me  
At the end of the day, that's what you do best That's what you do best That's what you do  
best That's what you do best Why was it easy for you? Did I deserve the abuse?  
I can't believe I let it, not what I wanted  
See through your bullshit, you're so traumatic  
True to your form of every consequence Unintimidated till the very end  
It'll never happen, was it all a lie?  
Many motherfuckers, that's what you do best

That's what you do best, that's what you do best  
Oh, that's what you do best A home like yours is upside down  
Too much animosity, nobody does it better than the enemy  
A hope like yours won't help me now  
You can do your worst to me  
At the end of the day, that's what you do best A home like yours is upside down  
Too much animosity, nobody does it better than the enemy  
A hope like yours won't help me now  
You can do your worst to me,  
At the end of the day, that's what you do best A home like yours is upside down  
You can do your worst to me  
At the end of the day, that's what you do best  
A hope like yours won't help me now  
You can do your worst to me  
At the end of the day, that's what you do best That's what you do, that's what you do best, yeah  
That's what you do best, that's what you do best
