## Grace

## **Kate Havnevik**

I'm on my knees only memories are left for me to holdDon't know how but Ill get by Slowly pull myself togetherTheres no escape So keep me safe This feels so unreal Nothing comes easily Fill this empty space Nothing is like it seems Turn my grief to graceI feel the cold Loneliness unfold Like from another worldCome what may I wont fade away But I know I might changeNothing comes easily Fill this empty space Nothing is like it was Turn my grief to grace Nothing comes easily Where do I begin? Nothing can bring me peace Ive lost everything I just want to feel your embrace Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
