

# Between Us (feat. K Camp)

## Nipsey Hussle

Nigga, I'm a live like it's my last  
You worried bout them bitches we done had  
Baby I'm so focused on this cash  
I said baby I'm so focused on this cash  
I said she wanna roll cause she see me in that ride  
I ain't got no time, gotta put her on the side  
You can't come between it, between it  
You can't come between it  
Baby I'm so focused on this cash  
VS bezel my Ro', perfected my role  
Focused my mind, and got to this dough  
I'm one of a kind, not like what you know  
True to my oath, they proud of my growth  
I come from the turf, I doubled my worth  
I made some mistakes, but that's just part of my search  
They connect with my words, right at the part where it hurts  
This life is a bitch, my hand up her skirt  
Had a thirst to get rich, couple stains on my shirt  
Every reason to fail, but we was makin' it work  
We was walkin' on water, you could say it was church  
All this money I'm makin', every day I'm a splurge  
Boy!  
We on that Clicquot and kush, all yo buttons, I push  
We pull up in that Benz, all them pictures they took  
Paparazzi gone flock, that's cause both of us hot  
Ain't no limit like Percy, but we like Jada and Pac  
Let's invest in these stocks, let's vacate on these yachts  
Let's go chill out in Bali, let's make a tape and let's watch  
Let's by two of those watches, let's go do it on Collins  
Let's fly out to Atlanta, you play that role, got you poppin'  
I fuck with yo style, you should be somebody stylist  
Every time we have sex, you makin' noises the loudest  
Faces you makin', paper I'm chasin'  
If I make you my girl, you ask if I could be faithful  
I'm stuck to these streets, I'm sprung on this loot  
Addicted to crime, but I'm attracted to you  
Pull up in that Porsche, then hop in that coupe  
Pull off in that Benz, it's me and that's you (uh)  
Girl yo sex the best, hickies on yo neck  
Love the way you dress, plus that pussy wet  
Do it 'til you sweat, and yo hair a mess  
Have you late for work, but you been carin' less

You been livin' more, you been lettin' go  
You been having fun, just to let me know  
That you down to ride, you down to roll  
You know the game, and how it go
