

# All My Life

## Jeff Lynne's ELO

All my life I was looking for you  
And suddenly you are there  
All my life I knew what I would do  
Just stand there like a fool and stare (All my life) All my life x 2  
I'm so glad I found you  
I just wanna be around you  
All my life All my life I searched for you  
But you were never there, were you?  
Thought I'd found you once or twice  
It was a sad affair or two  
(All my life) All my life x 2  
I'm so glad I found you  
I just wanna be around you  
All my life  
(All my life) x 2  
I'm so glad I found you  
I just wanna be around you  
All my life Yeah, yeah, all my life
