

Galaxy Express

Kora

I wanna know your heart
So we can make a start
Be my queen of the galaxy, oh
Would you be keen to walk the walk
Dirty and evil, but nothing illegal I've got your destination in my GPS
My ride is ready for the Galaxy Express
So far, but I don't give a
To have you near me is the ultimate succession
Like a star, no matter where you are
My imagination is how I can touch you
Is how I can touch you Just know that I, I want you
I want you Now don't you think you went too far
A love like that is a shooting star
I must admit I don't know who you are
A crazy chick, I wonder who you are
Oh, I've got your destination in my GPS
My ride is ready for the Galaxy Express
So far, but I don't give a
To have you near me is the ultimate succession
Like a star, no matter where you are
My imagination is how I can touch you
Is how I can touch you Just know that I want you, want you I've got your destination in my GPS
My ride is ready for the Galaxy Express
So far, but I don't give a
To have you near me is the ultimate succession
Like a star, no matter where you are
My imagination is how I can touch you
Like a star, no matter where you are
My imagination is how I can touch you Yeah, yeah, maybe
Now don't you think you went too far
A love like that is a shooting star
I tried to see, though you tried to hide
We're like the sky where the stars divide With the stars so high
And the moon so low
I've got a taste of your love
The one I won't show I know
I know, I know, I know I will
I know I will
I know, I know
My heart won't lose you again
