

# Lighten Up

## Chickenfoot

Why you workin' so hard, baby  
You could be makin' it easy  
You know it pisses me of sometimes  
When you, you start acting sleazy I'm under so much pressure  
You know there's not much blowin' up  
Feelin' under the gun sometimes  
Makes me feel like throwin' up I said, oh baby  
You're pushin' too hard  
You're pushin' too hard  
You say, lighten up Well, don't ask me no questions  
And I will tell you no lies  
We've been down that road before  
And it's me, not that other guy  
And I never wanted to hurt you  
I didn't mean to make you cry  
You always get what you want from me, don't you  
Whith a tear drop in your eye I said, oh baby  
You're pushin' too hard  
You're pushin' too hard  
You got to lighten up You're pushin' too hard  
You're pushin' on me  
You're pushin' too hard, baby  
Lighten up I like it when you want it  
Especially when you take it  
When you really, really need it  
That's when I know you're not faking it, wooh  
Hey, gonna call in a doctor  
Maybe get you on some pills  
But then I started to worry about you, baby  
Could be the pill that kills I said, oh baby  
You're pushin' too hard  
You're pushin' too hard  
You got to lighten up Oh baby  
You're pushin' too hard  
Lighten up I said, oh baby  
You're pushin' too hard  
You're pushin' too hard Oh baby  
Come on, baby  
Come on, baby  
Lighten up, yeah Oh baby  
You're pushin' too hard  
Oh baby

Baby, lighten up Pushin' too hard  
You're pushin' too hard  
Pushin' too hard  
Pushin' too hard I say, oh baby  
Pushin' too hard  
Oh baby, come on Pushin' too hard  
Baby, lighten up  
Oh baby
