

# Forever Tonight

## Galantis

Let me colourblind your night with possibility  
Set your teenage love alive, won't you follow me?  
Blowing fire in the sky, burning evergreens  
Before the sun is in your eyes, run away with me  
Forev-ev-ever  
Our night is guided by lights  
Toge-ge-gether  
We are one, one, one, one  
Toge-ge-gether  
We are one, one, one, one...  
We'll have forever tonight  
Forever Together  
Forever We'll have forever tonight (tonight)  
Forever  
We'll have forever tonight (tonight)  
Forever  
Let me colourblind your night with infinity  
We'll be one 'til we collide, in the in between  
Lighting bonfires, burning evergreens  
You can love me back to life, every time we see  
Forev-ev-ever  
Our night is guided by lights  
Toge-ge-gether  
We are one, one, one, one  
Toge-ge-gether  
We are one, one, one, one...  
We'll have forever tonight  
Forever  
Toge-ge-gether  
Forever  
We'll have forever tonight  
Forever  
Together  
Forever  
We'll have forever tonight (tonight)  
Forever  
We'll have forever tonight (tonight)  
Forever  
(tonight)  
We'll have forever tonight (tonight)  
Forever, Forever, Forever  
(tonight)
