

Stay (feat. Heidi Happy)

Yello

How nice to have you here
I've been waiting for so long
Been struggling with my fear of moving on
Stay for a while, stay for a while I've had you on my mind
The love was not too fine
I knew you could be good to change my mood(?)
You control me passively
I'm where I want to be
You could take me anywhere
I wouldn't care
Stay for a while, stay for a while, stay for a while
