

Shattering the Skies Above

Trivium

Take me into the seas
So I can clean, off this disease
Death will complete me
It is what I need Ya! Take my evil, to the skies
Take my evil, all light dies Shattering the Skies Above
I want to destroy all that you love
Shattering the Skies Above
I won't rest 'til I am drenched in blood Take me into the seas
So I can clean, off this disease
Death will complete me
It is what I need
Take my evil, to the skies
Take my evil, all light dies Shattering the Skies Above
I want to destroy all that you love
Shattering the Skies Above
I won't rest 'til I am drenched in blood Take my evil, to the skies
Take my evil, all light dies Shattering the Skies Above
I want to destroy all you love
I'm Shattering (Shattering the Skies Above)
Shattering the Skies Above
I won't rest 'til I'm drenched in blood
I'm Shattering Take my evil, to the skies
Take my evil, all light dies
Shattering the Skies Above
I want to destroy all that you love
Shattering the Skies Above
I won't rest 'til I am drenched in blood Shattering the Skies Above
Shattering the Skies (The skies above)
