

The Great Dividers

Unearth

aaaaaa...

grrrrr...

It's true there were better ones
That led their people
It's true there were better ones
To lead their country
It's true there were better ones
Who cared for this world
It's true there were better ones
But who are we to change
Without the strength of all
The nations will crumble
The nations will crumble
The nations will crumble
Feed lies for war
Bring the nations to it's knees
Risking worldly structure and integrity
Feed lies for war
Bring the nations to it's knees
Risking worldly structure
The balance of our kind controlled by hatred,
Distorted truth and lies
The balance controlled by hatred, Distorted truth and lies
United is the only way to stand
United is the only way to stand
Leaders of the free world lead into the land of the un-free
God sent politics hammered down with a fist too bold
Play the council of pawns in the quest of total control
Free us of this hate
Free us from this hate
Take over the world
Does hate mean freedom
Divide our home, come on
Does hate mean freedom
Take over the world
Divide our home, ahhh...
Does hate mean freedom
Does hate mean freedom
Take over the world
Divide our home
Does hate mean freedom
Does hate mean freedom

aaahh...
