

Urges

Lastlings

I love the way you want me too
Want me too
But you never really want me too
Want me too
Push me down and catch my breath
Catch my breath
Knocking feeling beating through my chest
Through my chest
I love the way you want me too
Want me too
But you never really want me too
Why are you afraid?
Why don't you wanna safe me?
Push me far away
Know you've got me desobedient
I'm waiting
I'm waiting on you
I'm waiting for you
Why are you afraid?
Why don't you wanna safe me?
Push me far away
Know you've got me desobedient
I'm waiting
I'm waiting on you
I'm waiting for you
I love the way
I love the way you
I love the way
I love the way you
I love the way
I love the way you
I love the way
I love the way you
I love the way
I love the way you
Can't you have me feel so wanty?
It's such a shame
Can't you have me feel so wanty?
Not the one to blame
Can't you have me feel so wanty?
It's such a shame
Can't you have me feel so wanty?
I love the way you want me too
Want me too

But you never really want me too
Want me too
Push me down and catch my breath
Catch my breath
Knocking feeling beating through my chest
Through my chest
Nothing safe when you're in my head
In my head
Speaking words that you never said
You never said
I love the way you want me too
Want me too
But you never really want me too
Want me too
I love the way you want me too
I love the way
I love the way you
I love the way
I love the way you
I love the way
I love the way you
I love the way
I love the way you want me too
