

# slow motion

Flor

Easy to see it wasted  
Deep in the summer time  
When the world's on fire I feel and taste it  
Sticks to the roof of my mouth  
Lasts through the night It's coming in a little bit hot, see  
Loving what I feel but it gets to me  
And I know it's all in my head  
And it still makes the world feel a little like it ain't real  
I swear you move slow motion  
Watching you looks like bending time  
Catch me in your illusion  
Helping me lose my mind Douse it in the water  
Cool when you feel it  
Hot but it's turning down  
It hurts to leave it  
But it's much too much to handle now It's coming in a little bit hot, see  
Loving what I feel but it gets to me  
And I know it's all in my head  
And it still makes the world feel a little like it ain't real I swear you move slow motion  
Watching you looks like bending time  
Catch me in your illusion  
Helping me lose my mind  
I swear you move slow motion  
Watching you looks like bending time  
Catch me in your illusion  
Helping me lose my mind
