

Scrape

Future

Shit too real, too real
Screamin' for your life
Skrrt, skrrt, skrrt, skrrt, skrrt Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Make me have to cook it off the counter
Make me have to serve you with the hammer
Make me have to put it in the freezer
Make me have to put it in a Pamper
Bakin' is all you heard, whippin' cocaine up is all you heard
Bakin' is all you heard, whippin' cocaine up is all you heard
Bakin' is all you heard, whippin' cocaine up is all you heard
Whippin' cocaine up is all you heard
Came in the house and it's all you heard
Cookin' up chicken like Gladys
Stayin' up late on addies
Pullin' up, swervin' in a Caddy
Fuck around caught me a baddie
Cranberry cups with the 'matic
Throw half a brick at Magic
18-5 on a Monday
I'ma renegade with the money
Like the way I scrape that butter
Betty Crocker sippin' on muddy
Straight droppin', gon' get flooded
Pyrex pot and the 40
This'll get a slow trap scrunchin'
If it ain't hot, it ain't rollin'
Twenty-four seven ain't closin'
They got my name at the Precinct
Know a nigga playin' in a sink
Came through playin' in a mink
Don't put the fan on, it's gon' shrink
I put a lot bands on another rinse
Got a lotta bands on me, outta drench
I got re-rock on me, got fish
I got kilo, Cuban on my wrist
I serve junkies, then I made a hit
I got my fork and my work and my syrup
I got my recipe goin'
You see me just splashin' and play with that girl

You already know what I'm doin'
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Make me have to cook it off the counter
Make me have to serve you with the hammer
Make me have to put it in the freezer
Make me have to put it in a Pamper
Bakin' is all you heard, whippin' cocaine up is all you heard
Bakin' is all you heard, whippin' cocaine up is all you heard
Bakin' is all you heard, whippin' cocaine up is all you heard
Splash, splash is all you heard
Came in the house and it's all you heard I just whipped up a new Celine
I just whipped up a Maserati truck
Cookin' by the sink with the fire up
Burned down the house, call the fire truck
All Bape got me scrapin' louder
Might even take a lil longer
Took a few losses with the cane
Arm & Hammer made me strong
Right for the door, count up the four
We ran outta sandwich bags, go get some more
You ain't put in the work and you homeless
I stash the work in the Honda
Remixin' to keep it one hunnid
Came in the house and it's all you heard
Splash, splash, all you heard
Whippin' cocaine is all you heard
Splash, splash, all you heard
Count up this cash and all you heard it Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Scrape it out the pot when I cook it
Make me have to cook it off the counter
Make me have to serve you with the hammer
Make me have to put it in the freezer
Make me have to put it in a Pamper
Bakin' is all you heard, whippin' cocaine up is all you heard
Bakin' is all you heard, whippin' cocaine up is all you heard
Bakin' is all you heard, whippin' cocaine up is all you heard
Splash, splash was all you heard
Came in the house and it's all you heard
