

Raise Your Fist

Throwdown

Broken down
Grab a hold of my hand
Cleanse yourself
Now set yourself free
Broken
Self-defeated
Lost
You've got to give yourself some discipline
Fuck yeah
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Cleanse yourself
You don't need it, despite what you may think
It's in your head
It's in your head
It's in your head
It's in your fucking head
It's in your head Now raise your fist in the air, drug free
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Raise your fist in the air, drug free
Cleanse yourself
You don't need it, despite what they may think
Cleanse yourself
You don't need it, despite what you may think
Now set yourself free
Now set yourself free
Come on
Cleanse yourself
You don't need it, despite what you may think
Cleanse yourself
You don't need it, despite what they may think
Let's go Now set yourself free
Free
Set yourself free
