

# Fade Away

Chris Isaak

Flowers and gardens, abandoned from view.  
Cry for their love, like I do. People talk, they love to whisper,  
think of all the boys who've kissed her.  
But to me it doesn't matter,  
Fade away fade away.  
Fade away. When we met we fell together,  
Now she's gone I can't forget her.  
Love is chance but time won't let her  
Fade away and fade away.  
Fade away, fade away.  
(Guitar Solo) Like flowers in this world I've never seen.  
I wanna hold your love,  
I wanna win your love for me. Fade away. For me there was no sunshine,  
For me there was no rain.  
For me until I met you,  
Every day was the same.  
Fade away, fade away, fade away.  
Fade away, fade away, fade away, fade away.  
Fade, fade, fade, fade away.  
Fade... away, fade away, fade away, fade away, fade away, fade away.
