

Spy (feat. Wyclef Jean)

Shakira

Slow motion
Blinds are see through
Let your mind go
Imagine that I kiss you Turn off the lights and open up your eyes now
You can take a glimpse into my soul for tonight Do you got the heat off, girl?
Yes, I do
Can you turn up the temperature?
You bet I could
Colombian with a swagger
Yes, I am
Whatever it takes to make this thing work we gonna
Whatever it takes to make this thing work we gonna
There's a spy by my window, I know it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me
Keep an eye on me
But if you want it got to let it be I know you dream about me
And it turns me on to think about it
This is the finest game
It ain't even got a name
I just wanna see how far it takes us tonight
Do you got the music on, girl?
Yes, I do
Can you get a little closer?
You bet I could
Colombian with a swagger
Yes, I am
Whatever it takes to make this thing work we gonna
Whatever it takes to make this thing work we gonna
Whatever it takes to make this thing work we gonna There's a spy by my window, I know it's
you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me
Keep an eye on me
But if you want it got to let it be When the dog's away, that's when the cats play
You'll be my girl, I'll be the spy

Like the James Bond flick, girl, I'm ready to ride
When the cat's away, that's when the mouse
play
You'll be my girl, I'll be the spy
Like the James Bond flick, girl, I'm ready to die, die, die
There's a spy by my window, I know
it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me
Keep an eye on me
But if you want it got to let it be
Lipstick's on, stockings up
Skirt's short, heels are high
Take your time, buckle up
Close your eyes and enjoy the ride
Close your eyes and enjoy the ride
Close your eyes
Close your eyes and enjoy the ride
