## Aphex Twin

Could those little drops of water meeting under your chin be teardrops  
could that pain in your heart be there because you love a new love  
well I know just how you feel  
I felt that way for so many years  
ever since that cloudy day you told me goodbye  
and with her you walked away  
now baby you're welcome  
now baby you're welcome back  
now baby you're welcome back to me  
Did she put you down cause the new love she found looks  
better  
did you find that a few nights of fun were all she was after  
well I know just how you feel  
I felt that way for so many years  
ever since that cloudy day you told me goodbye  
and with her you walked away  
now baby you're welcome  
now baby you're welcome back  
now baby you're welcome back to me  
Baby you're welcome  
now baby you're welcome back  
now baby you're welcome back to me
