

# Drowning In Love

## The Tenors

I wake up and found myself here  
Your whispers are calling me near  
I'm hopelessly drawn to the waves of desire  
I'm out where the air is so still  
And all of my dreams are fulfilled  
I'm anchored to you and I'm taking on water(Bridge)  
I'm drifting out  
Your tide will take me down  
( )  
I'm drowning in love  
Drowning in love  
Your ocean is washing over me,  
I'm deeper than i have ever been  
Drowning in love  
Drowning in love,  
You are the reason I can breathe  
I want to stay here underneath.  
Drowning in love  
Drowning in love Oh you made my world come to life  
We're sinking, our souls taking flight  
We're down at the bottom but never been higher(Bridge)  
I'm drifting out  
Your tide will take me down  
( )
