

Blur

We Came As Romans

I always saw you as something else
It looks like my eyes played a trick on themselves
But I galaxy it in misguided shade
may erase the image of the life we made I was set on you, when you had to shift
Mistakenly you had your flaws burned in
And it covers me till I fade to black
Unraveling the film of the life we had Your black light was too bright but now I can see Oh, I
feel over exposed
Our picture was perfect but now it's just a blur
You got me feelin like oh, oh oh, oh oh, so over exposed
Our picture was perfect but now I know
It's out of focus, cause your just a blur.
You always saw me as something less.
The trust that you had, snapped in a flash
Cause the galaxy and the filter fade
They remove me from the center of the frame So I let it go, and we both move on
There was no contrast, just black and white
Now we leave our past, capped up in stores
Just a photograph with the edges worn Oh, I feel over exposed
Our picture was perfect but now it's just a blur
You got me feelin like oh, oh oh, oh oh, so over exposed
Our picture was perfect but now I know
It's out of focus, cause your just a blur.
Oh, I feel over exposed
Our picture was perfect but now it's just a blur
You got me feelin like oh, oh oh, oh oh, so over exposed
Our picture was perfect but now I know
It's out of focus, cause your just a blur.
Cause your just, cause your just, cause your just a blur
Cause your just, cause your just, cause your just a blur You got me feelin like oh, oh oh, oh oh,
so over exposed
Our picture was perfect but now I know
It's out of focus, cause your just a blur.
