

# Forever and a Day

## Freddie Gibbs

Yeah, yeah  
Bitch (I'mma make it even if it take forever and a day now)  
I done did a lot of...  
Yeah  
I done did a lot of...  
Yeah (I'mma make it even if it take forever and a day now) I done did a lot of bad things just to  
get change  
I done took it to some levels that a lot of niggas won't go  
Yeah  
(I'mma make it even if it take forever and a day, now)  
I done did a lot of bad things just to get change  
I done took it to some levels that a lot of niggas won't go  
Yeah  
(I'mma make it even if it take forever and a day, now)  
I done did a lot of bad things just to get change  
I done took it to some levels that a lot of niggas won't go  
Take a life just to get a name  
Came up with the crackheads, thugs and the cut-throats  
Bloodshot from the blunt smoke  
Man I'm so high I can't even look my own momma in the eyes  
Kicked out through the front door  
She said the way a nigga livin', if I die, she won't be surprised  
Tears on the Bible, she prayed for me  
This can't be the life that she made for me  
Gotta lie to police when they raid for me  
If there's a heaven will they open up the gates for me?  
I wanted money for the summer, make a nigga trunk knock  
Gang signs out the window screamin' out fuck cops  
Soft dope, hard dope, get it all one stop  
Slung crack rock, never had a wicked jump shot, yeah  
Middle school, it was no joke  
Hats broke to the right in the hall it was all folks  
Good Lord, had to lay low  
Had a .38, I kept it in my locker, you ain't even know  
I wasn't from their hood so the Westside niggas ain't really have no reason to respect a nigga  
And since I went to school with them motherfuckers  
Niggas from my hood actin' like they ain't accept a nigga  
All that I could do was dash out  
Get a couple down niggas, put the mask on, cash out  
Broad day with the strap out  
Can't forget it, don't regret it, gave a nigga somethin' to rap about  
All that I could do was dash out

Get a couple down niggas, put the mask on, cash out  
Broad day with the strap out  
Last real nigga standing, I'm the one you niggas rap about  
Yeah  
Fuck what niggas say now  
I'mma make it even if it take forever and a day now  
No games, can't play now  
If I see you at the top, will I see you on the way down?  
Fuck what a nigga say now  
I'mma make it even if it take forever and a day now  
No games, can't play now  
If I see you at the top, will I see you on the way down?  
Yeah  
Will I see you on the way down?  
Yeah  
Will I see you on the way down?  
Yeah  
I'mma see you on the way down  
Yeah  
Bet I feel it from the waist down Yeah, keep your head up nigga  
Yeah, I know you fed up nigga  
Yeah, so get your bread up nigga  
Where the club, we can tear them niggas, yeah  
Pop a bottle of that Ace, take it to the dome  
Free my nigga Will Scrilla, bring that nigga home  
Yeah, I did it for the hood, now a nigga know  
Fuck rap, dope game put a nigga on  
Dope game, rap game, got a nigga stressed  
Heavy smokin', everything is running through a check  
Got me trippin', got me trippin off a nigga debt  
Runnin' through a hundred bitches, who I'm doin next?  
And my girl at the crib, got her own  
She don't need a dog nigga like that  
It be a hole in my motherfuckin' soul if see another nigga wife that  
I like that, but it's like that  
Steady tryin to keep my cool in a game full of fake niggas  
Backstabbin' and snake niggas  
Do a song with you, talk about you, smile in your face niggas  
Shouts out to the nigga Snow  
We was tryin' to take the world just like Tony and Manolo  
But he shot me at the front door  
He ain't want to see another nigga happy that's a no-no  
All that I could do was dash out  
Get a couple down niggas, put the mask on, cash out  
Broad day with the strap out  
Can't forget it, don't regret it, gave a nigga somethin' to rap about  
All that I could do was dash out  
Get a couple down niggas, put the mask on, cash out  
Broad day with the strap out

Last real nigga standing, I'm the one you niggas rap about  
Yeah Fuck what niggas say now  
I'mma make it even if it take forever and a day now  
No games, can't play now  
If I see you at the top, will I see you on the way down?  
Fuck what a nigga say now  
I'mma make it even if it take forever and a day now  
No games, can't play now  
If I see you at the top, well I'll see you on the way down  
Yeah  
Will I see you on the way down?  
Yeah  
I'mma feel it from the waist down  
Yeah  
I'mma see you on the way down  
Yeah  
Bet I feel it from the waist down
