Neutron Star Collision (Love Is Forever)

Muse

I was searching You were on a mission When our hearts combined like A neutron star collisionI had nothing left to lose You took your time to choose Then we told each other With no trace of fear thatOur love would be forever And if we die, we die together And lie, I said never 'Cause our love would be forever The world is broken And halos fail to glisten You try to make a difference But no one wants to listenHail, the preachers, fake and proud Their doctrines will becloud Then they'll dissipate Like snowflakes in an oceanLove, is forever And we'll die, we'll die together And lie, I said never 'Cause our love could be foreverNow I've got nothing left to lose

You take your time to choose

I can tell you now Without a trace of fear That my love will be forever And we'll die, we'll die together Lie, I will never
