## **Northern Lights**

## **Cider Sky**

Every time I close my eyes I can touch the colors around me Suddenly, I realize Everything I thought was impossible is hereMy heart sings in a world so incredible And everything burns much brighter I, I wanna fly, I into this beautiful lifeI think it'd be nice with you I, wanna fly, I into this beautiful life I think it'd be nice with you With you, with you, with youFinger tips, northern lights Tracing colors right through the sky Underneath a lullabyI never felt as blissful as I do Here, and my heart sings in a world so incredible And everything shines much brighter I, I wanna fly, I into this beautiful life I think it'd be nice with you I, wanna fly, I into this beautiful life I think it'd be nice with you With you, with you, with you Set the night on fire if we want to Hanging out with the stars and the big moon Very well thank you, how do you do? Set the night on fire if we want to Hanging out with the stars and the big moon Pull 'em down for a dance with your last soon I think it'd be nice with you, with you I think it'd be nice with you, with you I think it'd be nice with you, with you
