

This Light Between Us (feat. Christian Burns)

Armin van Buuren

Can you see this light between us
Keeps me breathing through the storm
My head above the crowd
Can you see this light between us
So come a little bit closer now
It's in our eyes
You and me, we're just believers
Believing what we hold
But sometimes we fall to pieces
In the dusk
So we should dance like this forever
We're safer on the ground
When a million lights surround you
And you're moving to the sound
Don't waste another moment
It's waiting for you now
So dive in this new beginning
Let the glowing show you how
I would say, this light between us
Keeps me breathing through the storm
My head above the crowd
Can you see this light between us
So come a little bit closer now
It's in our eyes
We'll take a ride outside together
The streets are lined with gold
Where the good become the wanted
Not the soul
And don't waste another moment
I'm waiting for you now
So dive in this new beginning
And let the colour show you how
I would say, this light between us
Keeps me breathing through the storm
My head above the crowd
Can you see this light between us
So come a little bit closer now
It's in our eyes
It's in our eyes
So dive in this new beginning
Let the colour show you how
I would say, this light between us
Keeps me breathing through the storm
My head above the crowd
Can you see this light between us
So come a little bit closer now
It's in our eyes
It's in our eyes
It's in our eyes
