All you niggas fucking trash

Quiver with fear when you step to the goat  
They gon' force me to loses my control  
Niggas ain't ready to walk down that road, what  
Fuck this whole scene man we taking shit over  
I've been doing business I've been with the older's  
Its too late for niggas the dead line is closer  
The world has been don't you see i'm the owner, yah  
We on that ultra light beam, yah  
We bout that money and cream, yah  
I fuck you bitch to my beats, yah  
I like the way that she screams, yah  
Little nigga doing bits, dropping tracks for the hell of it  
Never been indefinite im the master of the evidence  
Run up on nigga i turn to john which im a nemesis  
Pull up on the trigger and do the venomous negative  
Im so down and aggressive  
I run around with the weapon  
Im tripping out on the drugs  
Im bout to break me a record  
Ill knock your teeth like dentist  
I broke her heart dont regret it  
Im like Dennis the menace  
Oh my my my flow is stupendous  
Keep my fucking name out your mouth you don't know me  
You just hear the shit out my mouth, listen closely  
Everything i spit is hot shit and unholy  
Pussy niggas never seen a clip they're so phoney  
Fucking hate this place  
I see hell inside your face  
That shit fills me up with rage  
Passing points we shouldn't break

From that rail card to the range  
On some upgrade life exchange  
I break down and recreate
