

# Feel It (feat. CXLOE & Khamsin)

## KRANE

Didn't see this comin' round  
Didn't hear a sound  
Fell into your hands they let me down  
Lookin' for your heart I found the ground  
It's not on me, it's not on you  
We do what humans do  
But I just wanna head right out of you  
Didn't wanna hear you speak the truth  
Wanna take you away, wanna feel everything  
But do, you  
Got stuck in my brain, I just wanna escape  
With you, but do you  
Do you feel it  
Wanna get on off this ride, but now my hands are tied  
Feel you in my chest, not by my side  
Feel it in my thoughts, swallow my pride  
Wanna take you away, wanna feel everything  
But do, you  
Do you feel it
