6 Months

Hey Monday

You're the direction I follow To get home When I feel like I can't go on You tell me to go And it's like I can't feel a thing Without you around Don't mind me if I get weak in the knees 'Cause you have that effect on me You doEverything you say Every time we kiss I can't think straight But I'm ok And I can't think of anybody else Who I hate to miss As much as I hate missing you Months going strong now And no goodbye Unconditional, unoriginal Always by my side Meant to be together Meant for no one but each other You love me, I love you harder So...Everything you say Every time we kiss I can't think straight But I'm okay And I can't think of anybody else Who I hate to miss As much as I hate missing youSo please give me a hint So please give me a lesson on how to steal To steal a heart as fast as you stole mine As you stole mine, yeah Oh, and everything you say Every time we kiss I can't think straight But I'm ok And I can't think of anybody else Who I hate to miss As much as I hate missing you So please give me a hint So please just take my hand
