

# Put Your Head Out

## House of Pain

I rip shit like a bow when I flow  
When I score points with the joints that I throw  
'Cause I flow deadly I'm no punk see  
I break backs, make tracks and get funky There's now where to run to 'cause nobody cares  
MC's drop to your knees say your prayers  
The luck of the Irish is about to kick in  
Prepare to die and notify your next of kin I'm goin' all out, buck, duck and call out  
That's how I'm livin, punk you better call out  
This is the house of pain  
(Pain)  
To come inside is insane  
I'll put your head out  
(I'll put your head out)  
I'll put your head out  
(I'll put your head out)  
Jump up spread out I'll put your head out  
I'll put your head out  
Put put your head out  
Jump up spread out  
I'll put your head out Hey what up punk, punk?  
(I'll put your head out) Who steps the booze  
When the hoods wanna take a cruise  
They're feelin' the effects of the booze  
Ain't no clues to hold with them fools  
Who got smoked even though they scrat crews  
You got bruise but I got the booma'  
Trigger to blast ya askin' the bull  
Take my life shit I'll take you to school In the do what's the difference if your think of droppin'  
jews  
Carbon copy think you're so cool  
Stop dreamin' and hallucinatin'  
You're caught up in a piece of pain Clip clip, punk  
Now you're thinkin' oh shit  
Quit while you're ahead  
Before I fill you full of lead I'll put your head out  
(Put your head out)  
I'll put your head out  
(Put your head out)  
Jump up spread out I'll put your head out  
I'll put your head out  
Put put your head out  
Jump up spread out

I'll put your head out Blessed with the gift, and gifts with the rhyme  
I never say quit when I'm out to get mine  
It's live and let die, sit back and get high  
Smokin' a fat blunt, waitin' for some punk To act up like he's got somethin' in him  
Then I grab the mike and start spittin' out venom  
Coughin' up headstones, blowin' out headphones  
Steppin' to me, you'll wind up in the dead zone It's nothin' personal, that's how it goes, G  
Step up with beef, and you'll wind up losin' teeth  
'Cause I don't give up the mike that easy  
Step back, this ain't government cheese, G You can stand in line  
But you ain't gettin' it  
Talk all the shit you want  
But I ain't sweatin' it I'll put your head out  
(I'll put your head out)  
I'll put your head out  
(I'll put your head out)  
Jump up spread out I'll put your head out  
I'll put your head out  
Put put your head out  
Jump up spread out  
I'll put your head out
