

Far Away

Faydee

Baby, I'm not what I used to be
Nowhere, nowhere near the other me
Broken dreams, losing my identity
Slowly, breaking every part of me I gave up my whole life for you
Thought I knew you
In my heart I tried to find the truth in your lies
Oh, why did I let you get your way with me? And now I see
You're good from far away
But you're far from good for me
Here's to better days
When you're miles away
You're good from far away
I got to forget you
I wanna forget you
I need to forget you
Forget to forget you
Oooooo nananana, oooooo nanana We are nothing like we used to be
So far, far from good you are to me
My mistake, I thought you really cared for me
I should have known
You'd never do the same for me When I gave up my whole life for you
Thought I knew you
In my heart I tried to find the truth in your lies
Oh, why did I let you get your way with me?
And now I see
You're good from far away
But you're far from good for me
Here's to better days
When you're miles away
You're good from far away I got to forget you
I wanna forget you
I need to forget you
Forget to forget you
Oooooo nananana, oooooo nanana I got to forget you
I wanna forget you
I need to forget you
Forget to forget you
Oooooo nananana, oooooo nanana You're good from far away
But you're far from good to me
Here's to better days
When you're miles away
You're good from far away

But you're far from good for me
Here's to better days
When you're miles away
You're good from far away I got to forget you
I wanna forget you
I need to forget you
Forget to forget you
Ooooa nananana, ooooa nanana I got to forget you
I wanna forget you
I need to forget you
Forget to forget you
Ooooa nananana, ooooa nanana.
