

So Tonight That I Might See

Mazzy Star

Come up crash with the muses
Fells dust into ash
Come so close that I might see
The light inside me I might see Let me hold you tight and arms
Tight and arms you lost your chance
Come so close that I might see
The crash of light come down on me With good luck I'll find
The dark stop me now
Find me to your heart
Let me hold you tight
Like rain and sunshine on a rainy day
See the lights
Come so close that I might see
See the light come down on me
Searching like the fresh goes by small
Like wind refuse to die Free me now so I can see
The taste of wind who lock me
Does the wind indeed like me
Does the wind indeed like me With good luck I find the dark stop me now
Find me to your heart
Let me hold you tight
Like rain and sunshine on a rainy day Let me hold you tight and arms
Tight and arms you lost your chance
Come so close that I might see
The crash of light come down on me
The crash of light come down on me
The crash of light come down on me
Let me hold you tight and arms
Tight and arms you lost your chance
Come so close that I might see
The crash of light come down on me With spin luck I'll find the dark
Stop me now find me to your heart
The crash of light come down on me
So tonight the crash goes by
Small like wind and refuse to die
The crash of light come down on me
Come so close that I might see
See the light come down on me
I hold you tight like rain
Sunshine on a rainy day
Sunshine on a rainy day
