So Tonight That I Might See

Mazzy Star

Come up crash with the muses

Fells dust into ash

Come so close that I might see

The light inside me I might seeLet me hold you tight and arms

Tight and arms you lost your chance

Come so close that I might see

The crash of light come down on meWith good luck I'll find

The dark stop me now

Find me to your heart

Let me hold you tight

Like rain and sunshine on a rainy day

See the lights

Come so close that I might see

See the light come down on me

Searching like the fresh goes by small

Like wind refuse to dieFree me now so I can see

The taste of wind who lock me

Does the wind indeed like me

Does the wind indeed like meWith good luck I find the dark stop me now

Find me to your heart

Let me hold you tight

Like rain and sunshine on a rainy dayLet me hold you tight and arms

Tight and arms you lost your chance

Come so close that I might see

The crash of light come down on me

The crash of light come down on me

The crash of light come down on me

Let me hold you tight and arms

Tight and arms you lost your chance

Come so close that I might see

The crash of light come down on meWith spin luck I'll find the dark

Stop me now find me to your heart

The crash of light come down on me

So tonight the crash goes by

Small like wind and refuse to die

The crash of light come down on me

Come so close that I might see

See the light come down on me

I hold you tight like rain

Sunshine on a rainy day

Sunshine on a rainy day
