

# Supercharge (feat. Big Narstie)

## Enter Shikari

You could live slow, die old, like a sub-sea floor microbe  
Set foot sharpish  
That's one small step for man, that's one quantum leap  
For mankind, now we redefine, we unify  
We electrocute, we don't follow suit We're gonna supercharge  
It's gotta be one small step for man but man don't wanna step foot  
Yeah, we're gonna supercharge  
It's gotta be one small step for man but man don't wanna step foot Don't wanna step foot 'round  
here (don't wanna step foot)  
It's only blood, sweat and tears  
I'm gonna set dynamite (don't wanna step foot)  
So we can supercharge the night  
Eye for an eye leaves the whole world blind  
What's in the dark blud comes to the light  
Shepherd should never lead the sheep  
Blud it's peak BDL gave you the sign  
How can you separate the cunt from the body?  
You can't, you gotta separate the cunt from the mind  
Unity is power and in this dark hour  
Progression is gonna take time  
I'm a superstar, ambition like a V6 engine  
I am supercharged, ladies on my lap call me the viagra boy  
Baby know cause I am always hard, so Enter the Shikari Don't wanna step foot 'round here  
(don't wanna step foot)  
It's only blood, sweat and fears  
I'm gonna set dynamite (don't wanna step foot)  
So we can supercharge the night We electrocute, we don't follow suit  
We're gonna supercharge  
Forward, evolve, there's a future to unfold  
Focus, heads up  
They're gonna sabotage the plan now we're in too deep  
But mankind will redefine, we unify  
It's one small step for man but man don't wanna step foot Don't wanna step foot 'round here  
(don't wanna step foot)  
It's only blood, sweat and fears  
I'm gonna set dynamite (don't wanna step foot)  
So we can supercharge the night
