Evisceration Plague

Cannibal Corpse

Experimental pathogens, a devil's design
The dark side of science breeds a weapon of war
Contagious killing and internal distress

Homicide or suicide will be the cause of deathInternal organs altered by the disease

Your brain disabled by the constant pain

Erratic actions lead my thoughts to the blade

I've lost control, I've lost controlBeg for your life, you won't escape the knife

Your fate was sealed today

Disease has spread, you pray for death

Evisceration plague

Stabbing compulsion overwhelms my mind

Terrorized screaming follows the thrust of my knife

I wrench the blade from the chest to the crotch

Organs and entrails fall to the groundBeg for your life, you won't escape the knife

Your fate was sealed today

Disease has spread, you pray for death

Evisceration plagueDriven to kill, this is not my will

I am compelled to slay

Invisible foe takes control

Evisceration plagueUnable to be seen but with visible effect

Virulent disease causing outbreaks of violence

They tear themselves apart, offal covers the ground

Viscera torn forcefully from the abdomen

Intestines slick with blood cannot escape my grip

Surgical incisions give way to frenzied carving

Delirium has taken hold, disembowelment is complete

Horror grips my mind, my entrails are in my hands

My entrails are in my hands

My entrails are in my hands...

Plague leads to death

Plague leads to death

Plague leads to death

Plague leads to deathDisease will spread and cover the worldMass insanity, the end of our time

Scavengers will eat the remains of man

Our extinction was by our design

Beg for your life, you won't escape the knife

Your fate was sealed today

Disease has spread, you pray for death

Evisceration plague

Driven to kill, this is not my will

I am compelled to slay

Invisible foe takes control
