

# 1000X (feat. Broods)

Jarryd James

Even if I'm leaving you at the door  
Even when I know that you're never lonely  
Harder than imagined  
Harder when it's cold  
Even when I'm playing in the fire  
Even when I'm doing it for all my life  
Harder than imagined  
Harder when I let it go  
Tell me that love is enough  
The seas will be parted for us  
Tell me that love is, ooh  
In another lifetime  
I will never change my mind  
I would do it again  
Ooh, a thousand times  
Just to let you in here  
Where you make me lose my mind  
In another life I'd do it all again  
A thousand times  
Never ever would I let my love escape  
Never keep you from the promises I gave you  
Further than imagined  
Further than we've ever known  
Tell me that love is enough  
The seas will be parted for us  
Tell me that love is, ooh  
In another lifetime  
I will never change my mind  
I would do it again  
Ooh, a thousand times  
Just to let you in here  
Where you make me lose my mind  
In another life I'd do it all again  
A thousand times  
And I know that I find you  
If I only get a thousand times  
In another lifetime  
I will never change my mind  
I would do it again  
Ooh, a thousand times  
Just to let you in here  
Where you make me lose my mind  
In another life I'd do it all again  
A thousand times
