

# Stuck in Your Head

## I Prevail

You're not the one I want in my bed  
But I'm gonna be the song stuck in your head  
Stuck in your head  
Stuck in your head Guess what? For the record you're the broken one  
Tried to sing along but we got stuck  
So we turn it over and over again  
But now, a thousand scratches on the song we held  
A million cuts finally wore it down  
Couldn't turn it over and over again  
Turn it over and over again  
This'll be the last time that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
I'm not the song you want in your head  
This'll be the last time that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
But I'm gonna be the song stuck in your head  
Stuck in your head Guess what? Didn't wanna have to write these words  
Now you're on the other side reversed  
Never turning over and over again  
So now, I'll turn it off cuz it's so damn loud  
All your lies finally wore me down  
You can skip our track, cuz I'm not coming back  
This'll be the last time that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
I'm not the song you want in your head  
This'll be the last time that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
But I'm gonna be the song stuck in your head You made sick, round and round again  
So I'm turning you off and I'm trading you in  
Sick, so sick again  
Now I'm turning you off and I'm trading you in This'll be the last time that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
I'm not the song you want in your head  
This'll be the last time that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
But I'm gonna be the song stuck in your head Round and Round again, now I'm turning you off

and I'm trading you in  
Stuck in your head  
Round and Round again, now I'm turning you off and I'm trading you in This'll be the last time  
that I spin our life  
Never gonna play again  
You're not the one I want in my bed  
But I'm gonna be the song stuck in your head
