

# Forever

Lewis Capaldi

Caught me off guard, I wish that I'd been sober  
Still, here we are, back in Hanover 99  
Just like old times all over  
Under the exit lights as beautiful as ever  
I really wish that I dressed up a little better  
No regrets is what we said  
We can't go back again Darling, nobody said that it would last forever  
That doesn't mean we didn't try to get there  
I never said that we would die together  
That doesn't mean it was a lie  
Remember, nobody said that it would last forever  
Head in my hands, cold coffee on the table  
Wish you the best, I would if I was able  
Morning light, it stings a little  
I would up my mind, I don't remember calling  
Had too much tonic wine, sometimes it does the talking  
Hope you know I wish you all the love you're looking for Darling, nobody said that it would last  
forever  
That doesn't mean we didn't try to get there  
I never said that we would die together  
That doesn't mean it was a lie  
Remember, nobody said that it would last forever  
Forever, forever, forever  
Nobody said that it would last forever  
That doesn't mean we didn't try to get there  
I never said that we would die together  
That doesn't mean it was a lie  
They'll never take those long summer days  
When love was untamed  
Two burning hearts are bound to break  
Remember, nobody said that it would last forever
