

Breathe Life

Killswitch Engage

And it begins anew
The hatred of mankind
As it seeks to kill
That which lives inside Now we are dying
Dying the slowest death
Held down by bonds that bind us
We breathe our final breath And it begins anew
The burning we endure
As we seek the strength
Strength to break the bonds Now we are dying (Dying)
Dying the slowest death
No more condemnation
We fight for our last breath
Breathe life
For you are not alone
Breathe life
Inside your heart of stone From dust
You were born
And to the ashes you return
From dust
You were born
And to the ashes you return Break the bonds
Break the bonds Breathe life
For you are not alone
Breathe life
Inside your heart of stone (Breathe in life)
Breathe life
For you are not alone (Breathe life, breathe in life)
Breathe life
Inside your heart of stone
