Aces and Twos

The Devil Makes Three

Verse

In my dreams I laugh and smoke Everybody screams when I tell them jokes Well now I like to gamble but I sure don't ever lose Got a closet full of pin striped three piece suitsChorus I tell ya now, I pull aces You pull twos Come on now, when I wake up I don't know what to doVerse I battle demons in the dead of the night I don't come home until the sun shines bright Well now I walk with Jesus Is he walking with me? So hard to tell when everybody's on the same streets Chorus I tell ya now, I pull aces He pulls twos Come on now, when I wake up I don't know what to doVerse I drive a Cadillac a million miles long In the back you can't hear my radio on I only woke up to give a spoonful to you But in my dreams a spoonful sure won't doChorus I tell ya now, I pull aces He does too Come on now, when I wake up I don't know what to doVerse I battle demons in the dead of the night I don't come home until the sun shines bright I walk with Jesus Is he walking with me? It's so hard to tell when everybody's on the same streets Chorus I tell ya now, I pull aces He does too Come on now, when I wake up I don't know what to do
