

# Candy Castle

## Glass Candy

Let's take off our masks & be so naturelle  
Let's behold ourselves & break this evil spell I think that I'm good just because I behave  
But I've reached stalemate / I'm a self made cage  
They poked me with a stick because they wanted to see  
If I was alive or just pretending to be  
But my bones are in my body / Not in my grave  
Turns out I am free & I pretend to be a slave  
Yes the window still opens if the door is closed  
Afraid to die free / Afraid to die alone  
Yes the window still opens if the door is closed  
Afraid to die free / Afraid to die alone  
Like diamonds form from pieces of coal  
Uh-huh / Uh-huh  
Use your pressure / This is your magic tool  
This is the way to form a precious jewel  
Come on / Come on  
Come on / Come on  
Woo! Let's take off our masks & be so naturelle  
Let's behold ourselves & break this evil spell Come on / Come on  
Come on / Come on  
Come on / Come on  
Come on / Come on  
Woo!  
Not afraid to die free & not afraid to die alone  
Come on / Come on  
Not afraid to die free & not afraid to die alone  
Come on / Come on  
Woo!
