Want It All

Cam

Been a-sittin' 'round a coward, broken all that I can break Cried my eyes out in a bathroom stall of every western state Still, I ain't stoppin' cause there's more that I can take Got my angels and my demons and I think we all agree If you're gonna go for something, better make it everything I believe in the end I'll see that it's alright, alright Babe, I'll put my heart on the lineI want it all Don't want no rocking-chair regrets I got that fire and it's burning in my chest Gonna keep on living 'til I hear the last call And I, I, I want it all Bet my life on it Made my bed, gonna lie on it Made up my mind that I won't just get by or get lost in it I won't listen to your rumors, I won't listen to your doubts Too much ain't enough, so don't try to slow me down Know what? I'm thinking that I want it now Yeah, it's alright, alright Babe, I'll put my heart on the lineI want it all Don't want no rocking-chair regrets I got that fire and it's burning in my chest Gonna keep on living 'til I hear the last call And I, I, I want it all The song inside me won't be turned down I know I'm making my old self proud Love without conditions, no inhibitions I know I'm gonna lose sometimes I want it all Don't want no rocking-chair regrets I got that fire and it's burning in my chest Got a whole lot of living that I haven't done yet And I, I, I, I

I want it allI want it all
Don't want no rocking-chair regrets
I got that fire and it's burning in my chest
Gonna keep on living 'til I hear the last call
And I, I, I want it all
I want it all
I want it all
I want it all
