

Warm (feat. HAIM)

Charli XCX

You gotta tell me the reason
Why we can't fall in love
You gotta tell me the reason (no, no) Why you won't open up
Now I'ma send you to heaven
Tequila on your tongue
You gotta tell me the reason
Why we can't fall in love Tell me the reason (yeah)
Why we can't fall in love
You gotta tell me the reason
Why you won't open up
Now I'ma send you to heaven
Tequila on your tongue
You gotta tell me the reason
Why we can't fall in love
Why, why, why
Don't you lie
What do you want?
Fall in love, risk it all Tell me what you want
'Cause I know that you're lonely on your own
We're out in L.A. for a month
I don't think I can hide my emotions no, no more (uh huh) A late night say you want me, say
you're selfish
Think about my body, then two-time
Say you want her? Do you want her?
Doesn't do it like me, no
So hot, burn the place down
Give you what you need
So you gotta tell me the reason
Why we can't fall in love
You gotta tell me the reason
Why you won't open up
Now I'ma send you to heaven
Tequila on your tongue
You gotta tell me the reason
Why we can't fall in love Why, why, why
Don't you lie
What do you want?
Fall in love, uh huh, risk it all Make me wanna fall in love
Baby, make mistakes
Hit me with a champagne kiss
And now I'm not thinking straight
Look at the skyline high

I look up, I wish I saw your face
I wanna fall in love Jump in the deep end
'Cause deep down, you're d-dying
Tell me you're kind of nervous
Tell me you feel the same
I wish it was more than surface
I wish I could feel nothing
Come give me everything
Burn down and go again So you gotta tell me the reason
Why we can't fall in love
You gotta tell me the reason
Why you won't open up
Now I'ma send you to heaven
Tequila on your tongue
And you gotta tell me the reason
Why we can't fall in love Ooh, baby
(Why, why, why)
Tell me, tell me, tell me the reason
(Don't you lie, what do you want?)
Tell me, tell me, tell me the reason
(Fall in love, risk it all) (Tell me, tell me the reason)
(You gotta tell me the reason)
Tell me the reason
Tell me the reason
Tell me the reason
(Tell me, tell me, tell me the reason, tell me the reason, tell me the reason)
(Tell me the reason, tell me the reason, tell me the reason, tell me the reason)
(Tell me the reason)
