

Evolve, evolve I had to take, had to take leave of my senses  
To call my own conclusion  
Had to swing for the fences  
To find my own solution  
In a world gone mad, it's all so sad  
Look what we've become  
Welcome to the age of the new revolution Evolve, evolve  
Revolution  
Evolve, evolve  
Revolution  
Evolve, evolve  
Evolve, evolve
