EVOLVE

Shinedown

Opinions unbiased, shut up and be quiet

I'm trying to make you understand

This is what you're up against

Powerful, powerless

Leaving with the upset

Here to stay by the way I turned it around

In a room full of mirrors I figured it outI had to take leave of my senses

To call my own conclusion

Had to swing for the fences

To find my own solution

In a world gone mad, it's all so sad

Look what we've become

Welcome to the age of the new revolution

Evolve, evolve

Revolution

Evolve, evolve

Evolve, evolveItching to fight it so bring on the riot

Cause we're all invited to the dance

Raise a glass now for the damned

Terrorize, terrified

Praying for your fucking life

Wide awake, dominate

I figured it out

In a room full of mirrors there's only one way out I had to take leave of my senses

To call my own conclusion

Had to swing for the fences

To find my own solution

In a world gone mad, it's all so sad

Look what we've become

Welcome to the age of the new revolution

Evolve, evolve

Revolution

Evolve, evolveI had to take, had to take leave of my senses

To call my own conclusion
Had to swing for the fences
To find my own solution
In a world gone mad, it's all so sad
Look what we've become
Welcome to the age of the new revolutionEvolve, evolve
Revolution
Evolve, evolve
Revolution
Evolve, evolve
Evolve, evolve
