

# Bonfire

## Meese

Get your car, gather what you need  
Bring the matches and kerosene  
Tell 'em that you might need a couple days  
Better off if it's face to face  
We're gonna burn what we never mean  
If it hurts if it's killing me  
Throw it in the fire then we walk away  
Start over from another place  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes the flames burn high  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes and wave goodbye  
Stand in the rain watch another wave  
Nothing left of the mess we made  
Take another look then we turn around  
There's nothing left here anyhow  
You verses me verses everything  
Title bout out of the century  
Can you walk away in the final round?  
There's nothing worth fighting for anyhow  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes the flames burn high  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes and wave goodbye  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes the flames burn high  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes and wave goodbye  
[Music.]There's a bonfire burning up  
You just throw it on the fire  
Sometimes the flames burn high  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes and wave goodbye  
There's a bonfire burning up  
You just throw it on the fire

Sometimes it hurts sometimes  
There's a bonfire burning up  
You just throw it on the fire  
Sometimes and wave goodbye  
Goodbye
