

Constellations

Tom Odell

Sat around the table
The candle lying low
There's people all around us
But they're leaving you alone You're telling me a story
Of some lover that you had
Go on tell me now
Tell me now I think I'll understand
The piano man is playing
Some old melody
It don't mean much to anyone While it does to you & me
It's just some bitter love song
That everybody's heard
I'm gonna sing it out
Sing it out
Sing every single word
It's the same old constellation
The stars up in the sky Yeah, I've got a feeling
They're gonna look different tonight
Maybe I'm just crazy
Maybe I'm just high You could kiss my lips a thousand times
& they would never dry
I don't know where you're going
But hey, never stray too far 'Cause I'll tell you now
I'll tell you now
I like you just the way you are
It's the same old constellation
The stars up in the sky
Yeah, I've got a feeling
They're gonna look different tonight
It's the same old situation
That you can have with any guy
But go on put your arms around me
It's gonna be different tonight
Caroline
Caroline
I used to act so strong
But I was just terrified
Terrified
I feel it in my stomach
Call 'em butterflies
Butterflies
There's something in the air tonight

They're gone
They're gone
They're gone
It's the same old constellation
The stars up in the sky
But you know, I've got a feeling
They're gonna look different tonight
It's the same old conversation
You can have it anytime
Go on put your arms around me, baby
It's gonna be different tonight
