

Bring Out Your Dead

Monty Python

Hold out your life, best as you can
The whole world's burnin' down
But if it comes together, I'll be in your town
We can work it out, out, out
A good situation, a sweet donation
The Lord, He watches over you
You've been lost and found, you've come around
We can work it out, out, out
Hold out your life, hold out your life
Walk by yourself, proud as you can
May all your troubles be taken from you
You've been lost and found, you've come around
May all your troubles be taken from you
Hold out your life, best as you can
The whole world's burnin' down
But if it comes together, I'll be in your town
We can work it out, out, out, out
Hold out your life, hold out your life
Hold out your life, hold out your life
Hold out your life, hold out your life
