## **Dear One**

## **Jim James**

Dear one, you always push the boundaries of my soul
With life and love we finally gained control
Now all life unfolds for us only
Dear oneDaily, every minute your possession of my mind
Ticking synchronicity of time
Your life synced to mine, on a dime
Dear one
Dear one

Moving through the ages till today
Two souls alike to meet again this way
In this day in age, blessed to know youDear one
Truly it's taken on a new meaning to me
And life and love no written guarantee
If you like what you see, come and get it

Dear one

Cause you know

For this mission we were chosen you and me One egg that split in two we came to be The dawn of humanity

We were there

Dear one

Once lost and lonely

Dear one
