

# Off the Grid (feat. Khalid)

Alina Baraz

You say you love in the way I  
Show you the stars in the daylight  
You do the same for me everyday (Everyday)  
You say you love in the way we  
Don't gotta say what we thinkin'  
Never no pressure to fill up the space Say the word and you know I'll follow  
Off the grid in the Eldorado  
Could be nice in the summer time  
We could sit inside in the silence  
Say the word and you know I'll follow  
Off the grid in, I could take you far  
Could be nice in the summer time  
We could sit inside in the silence In silence  
Oh, yeah  
Check it, mm  
We been here everyday, on the same shit  
Sittin' in the silence  
I wonder where the time went  
When I see you smillin'  
I can feel your aura and it's vibrant  
You don't gotta ask me where my mind's been  
I do anything to see you shinin' (Do anything)  
I mean anything Say the word and you know I'll follow  
Off the grid in the Eldorado  
Could be nice in the summer time  
We could sit inside in the silence  
Say the word and you know I'll follow  
Off the grid in, I could take you far  
Could be nice in the summer time  
We could sit inside in the silence The silence, the silence, mm  
Say the word and you know I'll follow  
Off the grid in, I will take you far  
Could be nice in the summer time  
We could sit inside in the silence The silence, the silence, mm Say the word and you know I'll  
follow  
Off the grid in the Eldorado  
Could be nice in the summer time  
We could sit inside in the silence  
Say the word and you know I'll follow  
Off the grid in, I could take you far  
Could be nice in the summer time

We could sit inside in the silence
