

# Get Up On My Level

Kevin Gates

Get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, Tongue kiss and I'm biting public (Can't see you niggas)

No feelings ain't no bitch I'm trustin' (Can't see you niggas)

Faces that she make disgusting (Can't see you niggas)

Throwin' dick inside her stomach (Can't see you niggas)

Pause here cause I been hurt before (Can't see you niggas)

Love don't live here anymore (Can't see you niggas)

Racks spent on designer frames (Can't see you niggas)

Rocky shades to hide the pain (I can't see you niggas) Money ain't shit, got it all day, get it all day

Hold y'all chase, one of her may

The things you niggas brag about, ain't shit to me

I feel it's only right to say

You niggas need to get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level

You niggas need to get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level

Ain't scream when the polices took me (Can't see you niggas)

Fresh to death in central booking (Can't see you niggas)

Liquids from my team I took it (Can't see you niggas)

Not thinking they would play me pussy (I can't see you niggas)

Talked about when I'm not looking (Like Stevie Wonder)

Stay with keys while making music (Like Stevie Wonder)

Smiling bright throughout my struggle (Like Stevie Wonder)

Rich as shit but can't see nothin' (I'm just like Stevie Wonder) Money ain't shit, got it all day, get it all day

Hold y'all chase, one of her may

The things you niggas brag about, ain't shit to me

I feel it's only right to say

You niggas need to get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level

You niggas need to get up on my level, get up on my level, get up on my level, get up on my level, get up on my level, get up on my level

Goin' hard before I'm in the pavement, never had a real family

That nigga, I call daddy

I never had a real daddy

They was already making music

I just added rap talent

Came out of prison pursuing my dream now everybody mad at me

I ain't never try to diss y'all

All I ever did was tell the truth

Pray every one of y'all artists make it  
Don't or do, I still salute  
Got real niggas, from New Orleans  
All they do is click homers  
Made men don't make statements  
You bigger than that, that's phony  
Want every nigga that rap, from Louisiana to make it  
Medication then meditation and elevatin' to greatness  
"I'm not bothered by your dissin'", you was in your feelings  
Gave you niggas my all and you mistreat your niggas  
Now I can't see you niggas Get up on my level, get up on my level  
Love don't live here anymore  
I can't see you niggas  
Get up on my level, get up on my level  
Love don't live here anymore  
I can't see you niggas, can't see you niggas, I can't see you niggas, can't see you niggas, oh I  
can't see you niggas  
(Karma comes right back around and you'll get what you did to me)  
And love don't live here anymore  
I can't see you niggas  
Karma comes right back around and you'll get what you did to me  
And you'll get what you did to me  
Karma comes right back around and you'll get what you did to me  
I can't see you niggas (What you did to me)  
Karma comes right back around and you'll get what you did to me
