

# Excuse Me

## Nothing But Thieves

His space crowds out your space, your space  
His space crowds out hers  
Coffee breath and headphone hiss  
But no one says a word  
Eyes upon the paper headline  
Refuge in your phone  
Bumping shoulders  
Cough and sniff  
But no one says hello  
Excuse me while I run  
I really gotta get out of here  
Excuse me while I run  
I really gotta get out of here  
My heart beats like yours does, hers does  
My heart keeps good time  
And every day I mind the gap between you and me  
Here comes someone else to share the air we breathe  
Excuse me while I run  
I really gotta get out of here  
Reach out for anyone  
And they will tell you get outta here  
I'm asking everyone  
You gotta help me get out of here  
Excuse me while I run  
I really gotta get out of here  
Meanwhile  
Under the gun  
Hey everyone  
Our work here is done  
We out  
You gonna come?  
Hey everyone  
Our work here is done  
Excuse me while I run  
I really gotta get out of here  
Reach out for anyone  
And they will tell you get out of here  
I'm asking everyone  
You gotta help me get out of here  
Excuse me while I run  
I really gotta get out of here
