

# Honestly (feat. Carmouflage Rose)

Jai Waetford

been wrong too many times, yeah  
Love is a crime  
Been runnin' round like I'm blind  
Searchin' for reason  
Lookin' for purpose, yeah  
Been wrong too many times yeah  
Love is a crime  
Been hiding behind my pride  
But I know this feelin'  
And baby you're worth it 'Cause honestly we both are gettin' old  
And part of me just wants to see this grow  
Lemme learn how to touch, kiss, caress you girl  
Lemme show you a love you never had before  
All my love, I'll show you  
All my love, I'll show you Everybody wanna know, know now  
But nobody wanna slow, slow down, yeah  
I just wanna take my time with you  
Time with you baby  
Everybody wanna know, know now  
But nobody wanna slow, slow down yeah  
I just wanna take my time with you  
Time with you baby Until forever dies I find myself all in your eyes  
Got me hypnotised, falling deep, ain't no surprise  
See these other guys, they full of lies, they cold inside  
We going clockwise, sunrise to sunrise  
Till infinity no divinity in our synergy  
Goosebumps, get a little hiccups when you around yeah  
Just for tonight only, it's more than we  
'Cause honestly we both are gettin' old  
And part of me just wants to see this grow  
Lemme learn how to touch, kiss, caress you girl  
Lemme show you a love you never had before All my love, I'll show you  
All my love, I'll show you Everybody wanna know, know now  
But nobody wanna slow, slow down, yeah  
I just wanna take my time with you  
Time with you baby  
Everybody wanna know, know now  
But nobody wanna slow, slow down yeah  
I just wanna take my time with you  
Time with you baby Letting go of all the things that we used to hold  
All of the things that we used to know  
All of these things for you

Letting go of all the things that we used to hold  
All of the things that we used to know  
All of these things for you Everybody wanna know, know now  
But nobody wanna slow, slow down, yeah  
I just wanna take my time with you  
Time with you baby  
Everybody wanna know, know now  
But nobody wanna slow, slow down yeah  
I just wanna take my time with you  
Time with you baby
